

Direction-matched KEGG overlap

Top row: within-sample top 15% (exploratory); bottom row: original global top 25%
FDR < 0.10 in each full collection; circles are not proportional to set size

A

Up-enriched

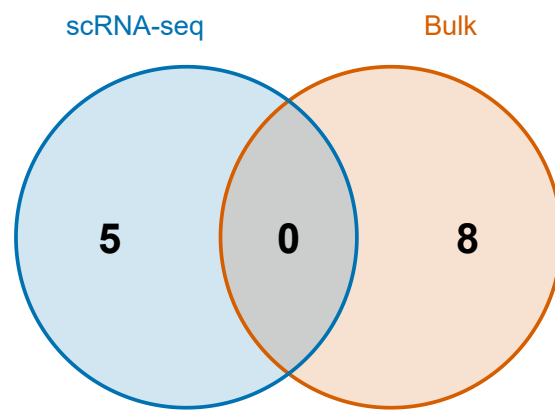

275 common tested pathways

B

Down-enriched

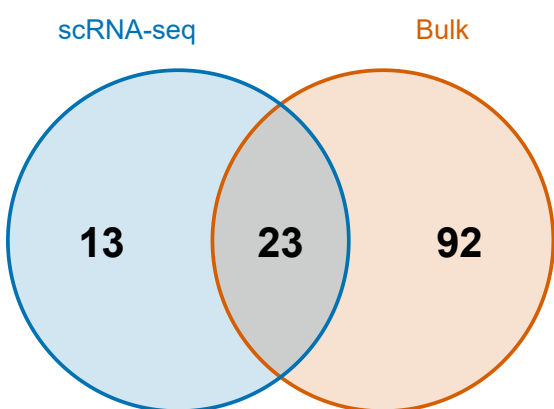

275 common tested pathways

C

Up-enriched

275 common tested pathways

D

Down-enriched

275 common tested pathways
